

Argentine TANGO with Robert Hauk

There are many styles of Argentine tango. The milonguero style is characterized by a very close embrace. This embrace facilitates a close connection between partners and is the framework for a dance of great subtlety and beauty. To dance this style well requires precision and balance. The steps can be simple or complex, but the focus is on the music and the connection, not the people watching.

Robert has been dancing the milonguero style for nine years since he met his main teacher, Susana Miller. He has spent significant time in Buenos Aires dancing among the older dancers of this style, learning their way of dancing tango. He has also spent years learning about the music and is a highly regarded DJ for tango dances. He has been a teacher and a DJ at many festivals around the country.

Robert's popularity as an instructor at tango festivals is a result of his practical insight and straightforward teaching that makes milonguero style tango readily accessible to students. His skillful teaching techniques quickly empower students with the 'feel' of connected social dancing. As a result, his teaching has been influential and has engendered tango community growth in Portland and other cities across the country.
