

Wasatch Tango Presents:

Argentine TANGO with Korey & Adeline

Adeline comes from a background in jazz dance. She discovered Argentine tango in 2002. Fascinated by the awareness necessary for the intensity of connection in tango, she devoted herself to the dance and understanding its intricacies. Part of this devotion included graduate studies in dance pedagogics. She has danced from Berlin to Buenos Aires and now comes to Salt Lake.

Korey is a professional composer turned tango-addict. He brings his love of tango music and dance together for fun workshops. Korey has spent the better part of the last eight years traveling and teaching tango in England, Holland, Spain, Germany, Russia and Argentina, sharing his passion for tango, music, expression, and connection.
